AVIAN INFLUENZA DISEASE ALERT

As a result of continued influenza surveillance in Minnesota, the following poultry flock has presumptive positive influenza test results:

MNAIU06-16 – KANDIYOHI COUNTY
a) Breeder turkey hens (30 weeks old) with no clinical signs
b) Flock is located in Kandiyohi County, MAPP Code = 34STJO19C
c) Tracheal swab samples were collected April 3, 2016 and submitted to the University of Minnesota Veterinary Diagnostic Laboratory for surveillance testing.
d) 2/4 tracheal swab samples were Influenza A Matrix positive (CT values mid 20’s); All samples were H5/H7 NEGATIVE.
e) Samples are being submitted to the National Veterinary Services Laboratory (NVSL) for confirmation.

If there are any questions or concerns please let me know.
